January 2010

Happy New Year!

Greeting a new year is always positive. No matter how hard it was before, we can leave it behind us and go forward with our lives.

According to the New York stock exchange market and some economists, the US economy is improving. However, the nation's unemployment rate keeps rising. It has reached an all time-high record over 10%. No one knows for sure how it will change.

President Obama's plan was to increase jobs and to minimize rising unemployment rate by special funding in infrastructure fields. So far, that didn't support us.

High unemployment could create many negative effects on the daily lives of both individuals and the community as well. Of Course, financial hardship is the biggest of all. Therefore, some people suffer great depression.

In this chaotic time, some people take advantage of a new opportunity. Such as, opening a new business, or go to a school to earn a 2 year or a 4 year degree to pursue a new career.

If you are unemployed, please do not panic. You must evaluate your personal inventories; how you can apply the strengths, weaknesses, and skills you have.

Your "courage" is the best asset of all to achieve your next goal. Please do not hesitate to make a decision now. Time never stops, it flows like water.

Party Report:

We had a wonderful Holiday Party on 12/19/09.

The KAWA and the NoPak members, total 78 people were gathered. That party was so successful that the Korean Association Staff expressed interest to join the next year's party.

For organizing that event, every board member and the staff members of both organizations contributed great efforts. Especially, we must acknowledge Linda Chun's dedication. She spent long hours of soliciting members and friends to purchase tickets on the phone.

It's easier said than done .
